

RESIDENTIAL

CENTRAL VACUUMS

PERFORMANCE • RELIABILITY • HIGH-END PRODUCTS • EASY MAINTENANCE • QUIET

RELIABLE. POWERFUL. VERSATILE.

MADE IN CANADA **SINCE 1982.**

More than 40 years ago, we started designing products to meet the stringent requirements of the commercial and industrial sectors. The application of our technologies for domestic use is your guarantee of satisfaction for years to come. The proven performance and reliability of our systems are recognized worldwide.

We clean
up good!

The Drainvac Method

- 1** Specialized, user-friendly tools such as the VacReel, the Vacpan and Wallyflex can be strategically installed throughout the building making all household chores easier.
- 2** There is nothing to carry, thus avoiding accidents that can lead to back pain.
- 3** With the unit installed far away, the noise is greatly reduced.

Drainvac offers a large range of products to meet your cleaning needs: **with compact or large-capacity units, with or without a bag, conventional or designed to pick up liquids.**

We also offer a wide range of tools and accessories: **turbo brushes, floor brushes for any kind of surface, animal brushes and much more!** For a complete list, please visit our website: **www.drainvac.com**

The Drainvac Difference

At a time when nothing seems to be built to last,
we are proud to be the exception to the rule.

Innovative Products

Drainvac designed and developed the first vacuum cleaning system with a patented automatic drain: the "Automatik" model. It works without a dust bag, nor a filter and the canister never needs to be emptied since the vacuumed materials are evacuated in the sanitary drain. It is virtually maintenance-free and also picks up liquids!

Reliability

It sometimes takes 30 years before certain customers come back to us to replace their unit.

Quiet Operation

Units are equipped with soundproof canisters that emit only 58 decibels (comparable to a conversation) and air outlets with mufflers: all innovations that decrease noise pollution.

Time Saving

A fast and efficient service combined with units so powerful that you don't have to clean the same place twice: Drainvac saves you time.

Improved Air Quality

HEPA Filter

The exhaust-filter Activac 3 is an HEPA filtration system (*High Efficiency Particulate Air*) which can **clean 99.7% of airborne particles in a single passage.**

The Activac 3 is also equipped with an activated charcoal membrane to reduce bad odours.

PRO SERIES

MY FIRST SYSTEM

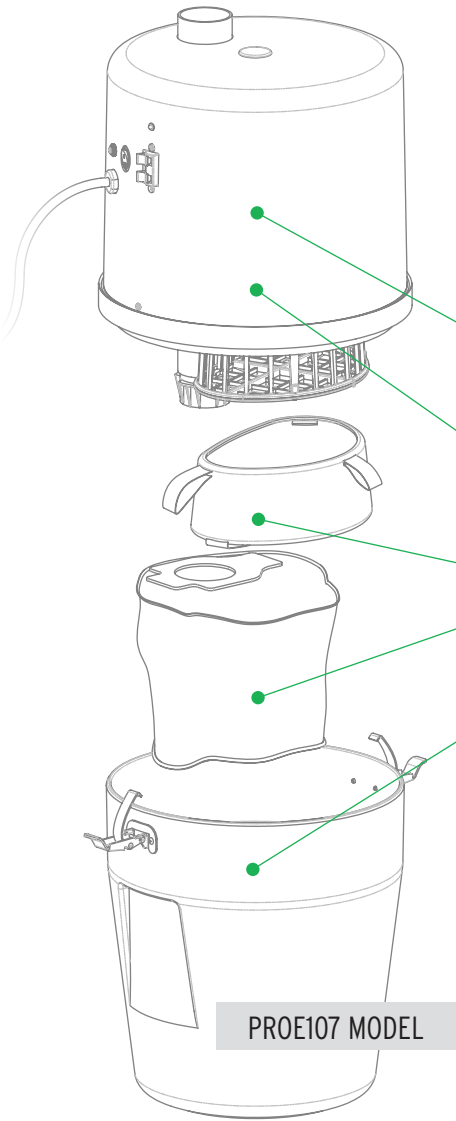

- Vacuums solids
- Operates with a bag
- Permanent filter
- Compact
- 325 m²

MODEL	PROE107
POWER	700 AW
WATERLIFT	3880 mmH ₂ O
AIRFLOW	315 m ³ /h
NOISE LEVEL	65 dB
VOLTAGE	220V - 240V
QTY. OF MOTORS	1
CAPACITY	Up to 17 L
HEIGHT	58 cm
DIAMETER	30 cm

SAC31

FILT30DVI

This model includes 1 dust bag and 1 cage filter.

- ### Features
- When price matters: our most economical series.
 - Compact model occupying little space (30 cm diameter).

- Casing made of polypropylene, resistant to impacts and lifetime warrantied. Made in Canada.
- Circuit board made in Canada.
- Permanent **SMS** filter and dust bag included.
- A semitransparent canister allows you to see at a glance if the dust bag must be replaced.

PROE107 MODEL

Units of the PRO series operate with a bag. Improper use will void the warranty.

S1000

SERIES

LITTLE EXPERT

Vacuum solids

Operates with a bag

Permanent filter

Silent

Compact

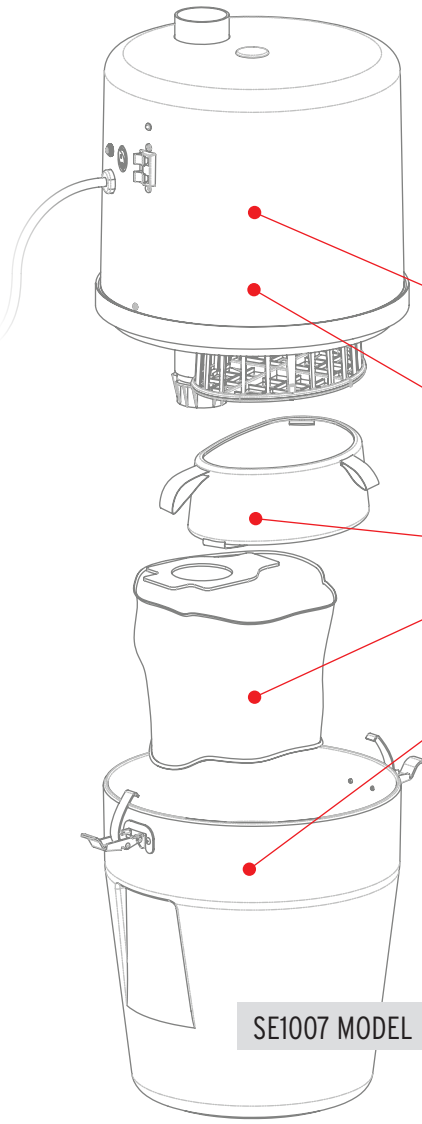

325 m²

MODEL	SE1007
POWER	700 AW
WATERLIFT	3880 mmH ₂ O
AIRFLOW	315 m³/h
NOISE LEVEL	58 dB
VOLTAGE	220V - 240V
QTY. OF MOTORS	1
CAPACITY	Up to 17 L
HEIGHT	58 cm
DIAMETER	30 cm

SAC31

FILT30DVI

This model includes 1 dust bag and 1 cage filter.

Features

- A quiet motor: only 58 decibels.
- Compact model occupying little space.
- Soundproof casing made of polypropylene, resistant to impacts and lifetime warrantied. Made in Canada.
- Circuit board made in Canada.
- Permanent **SMS** filter and dust bag included.
- A semitransparent tank allows you to see at a glance if the dust bag must be replaced.

Units of the S1000 series operate with a bag. Improper use will void the warranty.

GENERATION 2

SERIES

FOR LARGE SURFACES

- 

Vacuum solids
- 

Operates with a bag
- 

Permanent filter
- 

Silent
- 

Large capacity
- 

790 m²

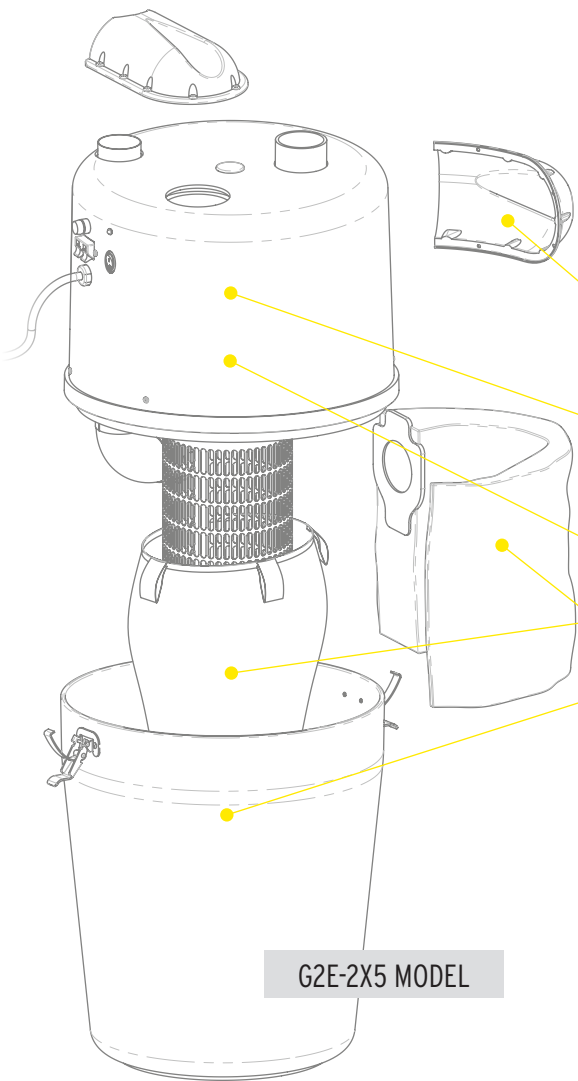

MODEL	G2E-007	G2E-007H	G2E-2X5
POWER	700 AW		2 x 520 AW
WATERLIFT	3880 mmH ₂ O	3500 mmH ₂ O	4318 mmH ₂ O
AIRFLOW	315 m ³ /h	246 m ³ /h	271 m ³ /h
NOISE LEVEL	58 dB	62 dB	72 dB
VOLTAGE	220V - 240V		
QTY. OF MOTORS	1		2
CAPACITY	Up to 41 L		
HEIGHT	70 cm		
DIAMETER	38 cm		
BAG / FILTER	SAC32 / FILT33DVI	SAC20 / FILT07DVI	SAC20 / FILT07DVI

Models of the G2 series include 1 dust bag and 1 cage filter.

Features

- Models with 1 or 2 motors.
 - Quiet motor from 58 dB.
- 
 - Certain models are equipped with **AudioProteks** to reduce high frequencies.
 - Soundproof casing made of polypropylene, resistant to impacts and lifetime warrantied. Made in Canada.
 - Circuit board made in Canada.
 - Permanent **SMS** filter and dust bag included.
 - Large capacity tank.

G2E-2X5 MODEL

Units of the GENERATION 2 series operate with a bag. Improper use will void the warranty.

CYCLONIK SERIES

HYBRID SYSTEM

Vacuums solids

Vacuums liquids

Permanent filter

Silent

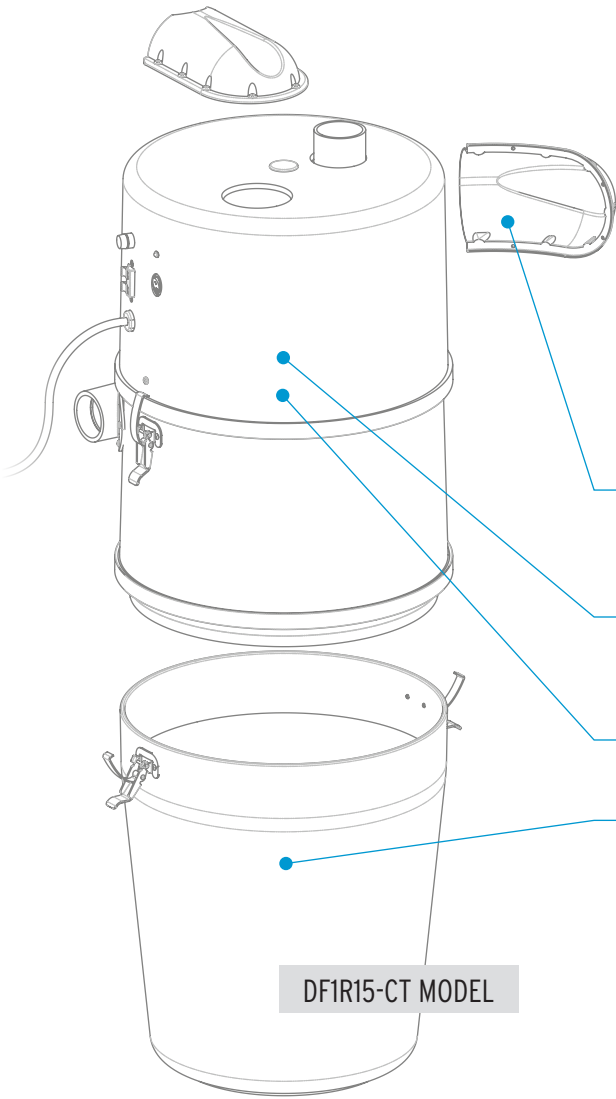

Operates without a bag

Large capacity

880 m²

MODEL	DF1R630	DF1R11	DF1R15-CT
POWER	700 AW	483 AW	2 x 355 AW
WATERLIFT	3880 mmH ₂ O	3148 mmH ₂ O	4191 mmH ₂ O
AIRFLOW	315 m ³ /h	207 m ³ /h	198 m ³ /h
NOISE LEVEL	58 dB	66 dB	70 dB
VOLTAGE	220V - 240V		
QTY. OF MOTORS	1		2
CAPACITY	46 L		
HEIGHT	95 cm		
DIAMETER	38 cm		
FILTER TYPE	Foam	Cartridge	

The Cyclonik models operate with a foam filter or a cartridge filter.

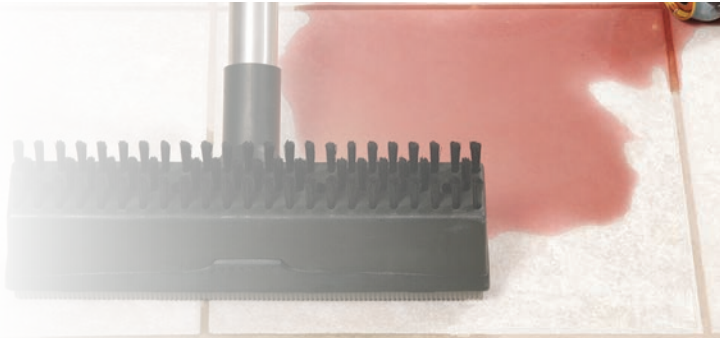

- ### Features
- Vacuums dry materials and liquids, up to 16 L.*
 - Vacuums with cyclonic effect and maintains a constant and optimal suction power.
 - Outdoor exhaust strongly recommended.
 - Cannot be paired with an auxiliary head. Available only for commercial models (DF1R19-CT, DF1R20-CT).
- Certain models are equipped with **AudioProteks** to reduce high frequencies.

Soundproof casing made of polypropylene, resistant to impacts and lifetime warrantied. Made in Canada.

Circuit board made in Canada.

No bag needed. Empty and clean the canister when necessary.

* Except for model DF1R630 for which we do not recommend vacuuming liquids. To vacuum a larger volume of liquid, please opt for an Automatik model.

AUTOMATIK

SERIES

SELF-FLUSHING SYSTEM

Vacuums
solids

Vacuums
liquids

Silent

Operates
without a bag

Easy
maintenance

Large
capacity

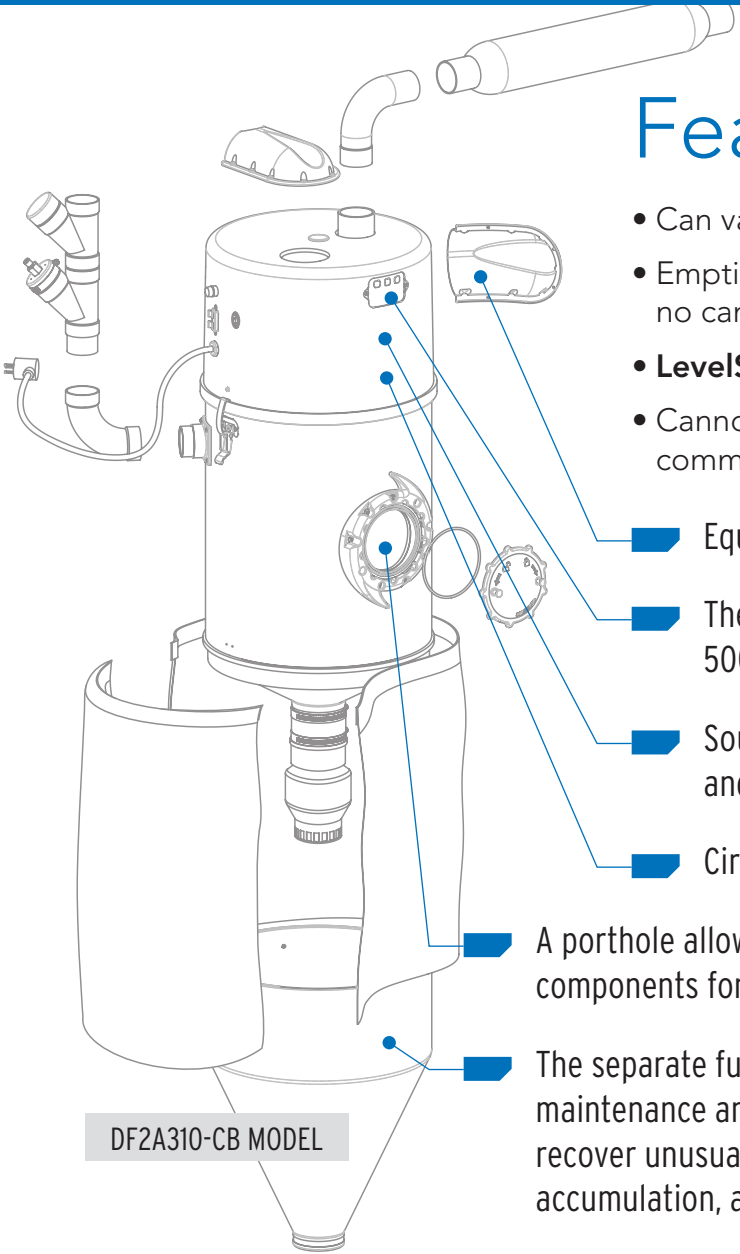

1 860 m²

MODEL	DV1A180	DF2A310-CB
POWER	600 AW	2 x 355 AW
WATERLIFT	3700 mmH ₂ O	4191 mmH ₂ O
AIRFLOW	212 m ³ /h	198 m ³ /h
NOISE LEVEL	66 dB	70 dB
VOLTAGE	220V - 240V	
QTY. OF MOTORS	1	2
CAPACITY	32 L	29 L
HEIGHT	102 cm	165 cm
DIAMETER	30 cm	38 cm

The Automatik series does not need any bag or filter and evacuates its air outdoors.

Water is propelled into the unit's air inlet and just like the toilet, the unit empties itself directly into the drain.

DF2A310-CB MODEL

Features

- Can vacuum dry materials and large quantities of liquids.
- Empties itself directly into the drain: no bag to replace, no canister to empty; everything is automated.
- **LevelSMART**: stops and empties the unit when it is full.
- Cannot be paired with an auxiliary head. Available only for commercial models (DF2A313-CB, DF2A31-CB).
- Equipped with **AudioProteks** to reduce high frequencies.
- The membrane adjusts the draining time of the unit, indicates the 500-hour count for a service maintenance and has an on/off switch.
- Soundproof casing made of polypropylene, resistant to impacts and lifetime warrantied. Made in Canada.
- Circuit board made in Canada.
- A porthole allows you to reach internal components for maintenance.
- The separate funnel facilitates maintenance and allows you to recover unusual materials, hair accumulation, animal fur, etc.

THE ESSENTIALS FOR YOUR SYSTEM

Disposable 2-ply paper dust bags or 3-ply cloth dust bags

SMS filter

Foam and cartridge filter

Activac 3 exhaust filter with activated charcoal membrane

ENHANCE YOUR CLEANING EXPERIENCE WITH OUR SPECIALIZED TOOLS & ACCESSORIES

Vacpan

Sweep inlet, standard
Available in white only

Cansweep

Sweep inlet, premium
Available in white only

Wallyflex

Auxiliary hose
Available in white or black

Turn & Clean Floor Brush

Power Head With Wand

*Requires an electric hose.

Hose Cover

Choice of 9 or 10.5 meters.

SUGGESTED ACCESSORY KIT

10.7 m hose with power switch and button lock, stainless telescopic wand with lock, metal hanger, storage bag for accessories, long and flexible crevice tool, stand crevice tool, floor brush, upholstery brush and dusting brush.

DISCOVER OUR COMMERCIAL & INDUSTRIAL RANGE

Drainvac offers a wide **range of commercial and industrial products which can be combined with one another** to offer a configuration suited for every situation.

On the industrial level, **Drainvac is also specialized in designing customised devices** with power that can go up to **30 HP!**

**AN IMPRESSIVE NETWORK OF RETAIL OUTLETS
THAT KEEPS ON EXPANDING!**
